Heat oven to 350 . Peel potatoes and slice. Place potatoes in a pot of water. Water should cover potatoes. Boil potatoes until they are tender when you stick them with a fork they should fall apart. Drain potatoes and rinse well. Mash the potatoes and add butter, sugar, salt, baking soda, vanilla flavor, lemon juice, nutmeg, and cinnamon. Winter Fudge

- 1 8oz. jar Kraft marshmallow cream
- 2 TBS vanilla extract
- 2 12oz bags Nestles chocolate chips

Remove from heat and add margarine, marshmallow cream, vanilla, and chocolate chips. Stir well until glossy. Then add nuts if desired. Pour into large buttered baking dish and chill until firm. Nut Brittle

- 3 cups raw shelled peanuts or other chopped nuts
- 1 1/2 teaspoons baking soda
- 1/2 teaspoon salt
- 2 cups granulated sugar
- 1 cup light corn syrup
- 1/2 cup water
- 1/4 cup unsalted butter (don't substitute)

If using raw peanuts, preheat oven to 350. Spread peanuts in a 15 x 10 x 1-inch baking dish. (Jelly roll pan.) Bake for 15 minutes. Remove and pour into a bowl; keep warm. If using chopped nuts, put into pan and just heat through. If you use salted nuts, omit salt in the recipe. Generously butter two 15 x 10 x 1-inch pans; set aside. Combine baking soda and salt; set aside. Measure out butter and set aside. In a 3 quart heavy saucepan, stir together sugar, corn syrup and water. Heat to boiling. Boil rapidly until syrup begins to turn a golden color. (275 on candy thermometer.) Add nuts and continue cooking, stirring often until syrup is a clear cold color. (295). Remove from heat; immediately stir in butter and soda mixture. Stir just until combined. Mixture will foam up. Pour into the buttered pans. Cool slightly, then, using two forks, stretch thin. Cool completely. Break into pieces. Makes 2 1/2 pounds.

Easy Christmas Chocolates

- 1 stick (4oz; 1/2 cup) butter (not margarine)
- 2 lbs confectioner's (powdered) sugar
- flavoring and coloring of your choice

(see below for suggestions)

- cream (about 2oz; 1/4 cup or more)
- 12 oz chocolate chips
- 1/4 bar paraffin
- decorations

Place the butter and confectioner's sugar in the work bowl of a food processor. Pulse until the mixture resembles a soft meal. Add the desired flavoring and coloring. Turn on the food processor and slowly pour the cream through the feed tube of the machine. Mix together until the mixture comes together and a stiff dough is achieved. If it is too soft, it will stick to your hands when you try to roll it into balls. (Add more sugar.) If it is too dry, the dough will be too crumbly to roll. (Add more cream a few drops at a time.) The result will be a smooth and satiny dough. Remove the dough from the food processor and roll it into 1/2 inch balls. Place them on a cookie sheet lined with parchment or waxed paper and put into the freezer for about 10 minutes. At this point you can keep them in a bag or container in the freezer until you are ready to dip them. When you are ready to dip the candy, melt 2 cups of chocolate chips in a double-boiler with enough paraffin to make a thin glossy coating. Place the frozen balls of dough onto lined cookie sheets, then dip one at a time into the chocolate with a candy dipping fork (or regular fork if you cannot find a dipping fork). Try to shake off the excess chocolate and return each to the cookie sheet. Then quickly top with a decoration (unless you're using white chocolate - see below); since the fillings are frozen, the chocolate will set up fast. Repeat with each ball until all are dipped in chocolate. Store in the refrigerator up to 2 weeks, but bring to room temperature (about 1/2 hour) before serving. Makes about 4 dozen candies.

Flavor/Colors Orange Creams: orange flavoring or orange oil (to taste) and orange coloring. To decorate, pipe on a 1/4" orange dot with green leaf. Coconut Creams: add flaked coconut and 1 tsp vanilla to the sugar and butter and process as usual. After dipping top with flaked coconut. Mints: peppermint oil to taste. Decorate with green-tinted white chocolate (see below). Maple Creams: maple flavoring and a tablespoon of dark molasses. Decorate tops with chopped nuts.

Chocolate Creams: replace 1/3 cup of the sugar with cocoa powder. Process as usual. Decorate with chocolate stripes. You can also use flavored liqueurs and schnapps (Irish cream, blackberry, raspberry, etc) for unique flavorings. You can also dip the candy into white chocolate. Decorations: Pecan halves, chocolate sprinkles, rainbow sprinkles, white chocolate (use almond bark candy coating; melt carefully in a bowl in the microwave; transfer to a plastic baggie or parchment bag -snip off a small opening and pass back and forth over the candy to make thin stripes).

*NOTE: This recipe works best using a food processor.

Church Window Cookies

- 1 stick margarine or butter
- 1 large package chocolate chips
- 1 cup chopped nuts
- 1 package colored miniature marshmallows

Cook butter and chocolate until the chips are melted. Take from the stove and add nuts. After cooling for five minutes, add the marshmallows. Coat waxed paper with 10X powdered sugar and roll mixture in this. Form in a roll and chill. Slice when cold.*The number of cookies this makes depends how many rolls you make and how you slice them.

*NOTE: It is better if you have the marshmallows cold before adding to the chocolate mixture. When they are sliced, the marshmallows are framed by the chocolate.

Immediately add chocolate mixture to dry ingredients. Mix well with wooden spoon. Let mixture sit for about 30 minutes. Form balls from mixture, about 1/4 to 1/2 inch diameter, rolling in palms to smooth surface. Roll balls lightly in tray of granulated sugar. Place finished B-Balls in cookie container, separating layers with waxed paper, and let them "season" in sealed container for several days before serving. Leche Flan Creme Caramel

- 1/2 cup Granulated sugar
- 2 Tbs. Water
- 12 Egg Yolks
- 2 12-oz. cans Evaporated Milk
- 14-oz. can Sweetened Condensed Milk
- 1 tsp. Vanilla Extract
- Sprig of fresh Mint, optional garnish

Combine the sugar and water in a small saucepan. Bring the mixture to a boil, stirring constantly to dissolve the sugar. Continue to cook over moderate heat without stirring until the mixture has turned amber in color. This usually takes about 8 to 10 minutes. Pour the caramel into a 1 1/2-quart baking dish, tilting the bowl to evenly coat the bottom and sides of the bowl. Be sure to exercise care to avoid burns. Pre-heat the oven to 325-F degrees. Combine the egg yolks, evaporated milk, sweetened condensed milk, and vanilla in a large mixing bowl. Strain the mixture slowly while pouring it into the caramel-lined baking dish. Place the dish in a larger baking pan and fill the pan with enough water to cover up to one-third of the side of the bowl. Bake for 75 to 90 minutes, or until the custard is set and wiggles only slightly at the center of the bowl when shaken. Remove the custard from its water bath and let cool for 1 hour, then refrigerate overnight. To serve, run the tip of a knife around the sides of the custard to loosen it from the bowl. Briefly dip the bottom of the bowl in hot water to facilitate loosening its grip from the bowl. Invert the bowl onto a serving plate, letting the caramel run and puddle attractively on the top and sides of the flan. Garnish with a sprig of fresh mint, if desired, and spoon out or serve in wedges. Serves 8 – 10
